Army Mass Training Update Spreadsheet
This tool is designed to facilitate the updating of mass training requirements into the Defense Civilian Personnel Data System (DCPDS). All columns with a yellow title are required. Those columns with a blue title are required if costs are involved. Failure to include values in these fields may result in the training not being correctly updated. Columns with a green title should be left blank. All other entries are optional but should be completed if known. Please complete the contact information below and forward this file to your servicing Civilian Personnel Operations Center (CPOC) for processing. To begin entering completed training click on the 'Input Training' tab at the bottom of the screen.
TIP: Click on the red triangles located in the top-right corner of select columns to view a description of the available values for the entry. Data Element descriptions are found on the 'Data Elements' tab
